International conference

Sponsored by

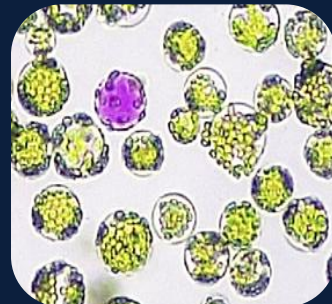

**New Phytologist
Foundation**

PLANT TISSUE CULTURE AND GENOME ENGINEERING

Santa Susanna, Barcelona

10-13 May 2026

<https://www.ptcge2026.com>

- Advanced gene-editing technologies
- Agricultural biotechnology and crop improvement
- Molecular regulation of organogenesis in vitro
- From protoplasts to plant
- Improving traits of Vitis species via genome editing
- Somatic embryogenesis and organogenesis: from mechanisms to optimization
- Double haploids: mechanisms and method improvement
- and more...

Registration is open to all.

**All participants are welcome to
bring posters.**

**Abstract submission for oral
presentation before 01 Mar 2026.**

Organizers (contact us for details)

Prof. Bastiaan Bargmann, Virginia Tech

Dr. Luca Nerva, CREA, Conegliano

Dr. Tomas Matus, I2SysBio

Prof. Leor Williams, HUJI Univ

Dr. Samuel Bocobza, ARO-Volcani
